

Planting Trees in Collaboration with the GLOBAL TREE INITIATIVE

A wish to plant a variety of trees at our Educational Centre in Ibiza, Spain led us to partner with the Global Tree Initiative (GTI), a grass roots international environmental campaign. The GTI was launched through a global community in 2020 by *Tenzin Osel Hita* with the aim of planting 100,000 trees worldwide as an offering for the long life of His Holiness the Dalai Lama and Lama Zopa Rinpoche supporters of this amazing project which main purpose is to benefit the maximum number of living beings – this goal has now been upgraded to **1 million trees!**

As a partner of the Global Tree Initiative, **Universal Mandala** is the first approved tree planting site in Ibiza and we invite you to plant a tree with us and our families.

Universal Mandala Tree Planting Site - What does this mean?

We commit to planting trees at our Educational Centre in Ibiza that is set on an organic working farm sanctuary of 50,000 square meters. As part of our curriculum and expanding permaculture project we will plant trees with our children, families and YOU!

Our vision and goals are aligned with the **Global Tree Initiative** and as a tree planting site we offer to plant trees on behalf of individuals or groups that wish to “plant – grow – save” with us. Sponsor a tree today as a special birthday, seasonal or commemorative gift for your loved ones or just because you wish to make a positive impact on our environment, supporting biodiversity and all living beings by planting a tree.

Update on our Tree Planting Activities (Winter 2020-2021)

We have bought our first twenty six trees and will start planting over the next months. Each time we plant a tree it will be reported and recorded on the Global Tree Initiative website.

If you wish to sponsor a tree or donate to our tree planting project please click on the donate button below. For your dedication please e-mail info@universalmandala.org
